Важливим структурним елементом у такій моделі співпраці мають стати Науково-аналітичні центри, які представляють собою ініціативну групу науковців і фахівців у певній сфері, що спрямовує зусилля на вирішення актуальних наукових і технічних регіональних проблем з метою подальшого економічного розвитку краю. Так, в Івано-Франківській області створений Прикарпатський науково-аналітичний центр, який вже більше десяти років працює під керівництвом заслуженого діяча науки і техніки України, доктора економічних наук, професора Ірини Іванчук.

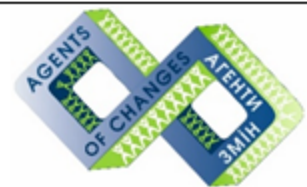

Демократизація суспільного життя пробудила соціально-економічну ініціативу громадян, суб'єктів господарської діяльності, місцевих органів влади, громадських організацій та інших інститутів, залучає до розвитку території. Практичною формою реалізації таких ініціатив єван проекту регіонального розвитку, які втілюються за рахунок фінансової та організаційної підтримки з боку держави, програм міжнародної технічної допомоги, а також різноманітних спонсорів.

Прикладом такої ініціативи, здатної позитивно вплинути на соціально-економічний розвиток
