THE US
UNIVERSITIES
are:

- powerful core of regional ecosystems, which are indispensable to the economic development of each state and are the main source of innovation
- a platform which allows for promoting and commercializing scientific developments of researchers and students
- the driving force of economic development which is seen as a high resource potential of:
 - *innovative business incubators, venture accelerators*
 - *centres of social and economic development*
 - *offices of economic research under the Regional Departments of Economy*
 - *clusters, hubs, co-working centres, etc.*

BENEFITS OF ACADEMIC AND BUSINESS INTERNSHIPS

- combine high degree of organizers' professionalism and comprehensiveness of program activities
- contain scientific, methodological, educational and professional training components
- enable to promote information about our university internationally
- provide an opportunity to study and adopt the best development practices
- provide an opportunity for potential international cooperation in different areas of the university's activities
- make it possible to apply the gained knowledge and to adapt the best practices so that they can help develop the Ukrainian educational, scientific and professional spheres, as well as economy in general.
